## FOREWARN

The Akron Cleveland Association of REALTORS® is thrilled to announce a **COMPLIMENTARY PROACTIVE SAFETY AND LEAD INTELLIGENCE** service for all ACAR REALTOR® members!

Quickly becoming the industry standard for safety and prospect intelligence, **FOREWARN** is a revolutionary application that allows agents to have instant due diligence on prospects. In seconds, with as little information as a phone number or name, ACAR members can verify a prospect's identity, criminal records, bankruptcies, liens, judgments, address history and property records all in one place, leading to safer and more productive interactions. This is not only critical for your personal safety and efficiency, but also a benefit to your listing homeowners, providing an added layer of protection for their homes and families through your vetting of prospective buyers.

### Searching FOREWARN in Seconds

- **FOREWARN** provides instant & mobile identity verification and public records (criminal, property, court, etc.) for over 98% of the U.S. adult population.
- With **FOREWARN'S** roughly 90% coverage of mobile & residential phone numbers, you should be able to search & verify most people from their phone number alone.
- When you are unable find an individual in **FOREWARN** using a phone number, this does not necessarily mean fraud or criminal intent. **FOREWARN** users are encouraged to gather further details and use the additional search functionality (the "Search by name" link) within the **FOREWARN** app to ensure verification of the prospect.
- Name search tip: When searching by name, if there are more than 100 results to your query, **FOREWARN** will display "Too many records found" and prompt you to re-run your search using additional criteria.
- Phone search tip #1: In the search results, **FOREWARN** displays all the individuals who have ever been associated/linked with the searched phone number. It is normal for multiple people to be linked to a single phone number, either as previous owners of the phone number, or relatives.
- Phone search tip #2 - "Record not found": If you search missed calls from telemarketing companies (typically they will not leave a voice message), you will get the result "Record not found" because that phone number has never been owned by, or associated with, a person.

### IMPORTANT - COMPLIANCE:

Please note that you must limit your **FOREWARN** searches to professional uses only. **FOREWARN** activity is actively monitored (search terms and volume) to ensure proper use by our Subscribers as outlined in the Subscriber Agreement and the **FOREWARN** Terms and Conditions. **FOREWARN** is a powerful tool intended only for the increased safety and efficiency of your business. Proper use of the service by real estate professionals ensures that we can continue to provide this valuable tool to the industry.
